Love Code
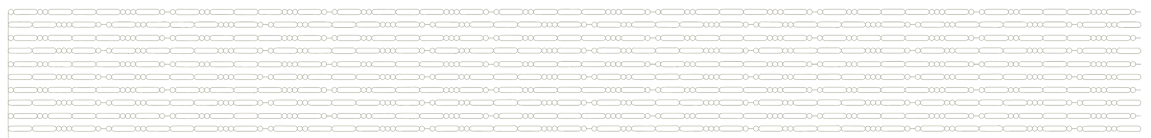

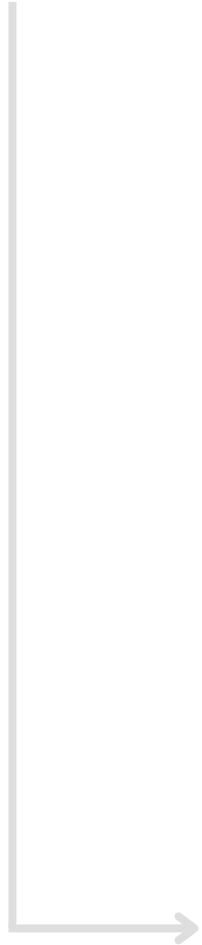

#lovecodepanto

single repeat
default size:
110" w x 12.76" h

Difficulty: Easy

Row height: 12-15"
Gap: see notes
Offset: none
Backtracking: minimal

Notes:

This is an extended width design and should be set up as a block with your

software instead of as a pantograph or repeating design. Set up vertical spacing

between blocks with the same consistency as the "lines of code" within blocks.

Use the L to R version if you get frequent thread breaks when traveling from right

to left.
